

# Sixty Years of Christmas Cookies

Gourmet Magazine offers up a great site detailing 60 years worth of recipes for cookies. The recipes are presented just as they appeared on the pages of the magazine, so the recipes for the cookies from the 40's don't presume you'll be using modern conveniences like a food processor, so you may want to tinker a bit with them, unless you're aiming for ultimate authenticity.

If you're on my holiday list, you can look forward to getting to taste some of these this December.

Note: 1/18/2010, With the demise of Gourmet Magazine, or just the passage of time, it appears this link is now dead. Sorry about that.
